

State License Physicians

By SK&A: 496,993

DESCRIPTION OF DATABASE

This comprehensive database includes all physicians from SK&A's Office-Based Physician file who are currently licensed to practice by their respective states. Licensing information is received annually by the individual states and appended to the SK&A physician files. SK&A is also able to append other licensure such as NPI number, DEA number and UPIN number. Physicians can be targeted by geography, specialty, office size, gender and many other selections.

Offers excellent results for: marketing and advertising for pharmaceuticals, CME programs, recruitment services, patient compliance programs, practice software, medical equipment and supplies, office needs or publication subscriptions; building early relationships with prescribers; and market planning and analysis.

Note: Please call SK&A corporate office for net counts by specialty.
