

SK&A FTP File Download Instructions

September 18, 2018

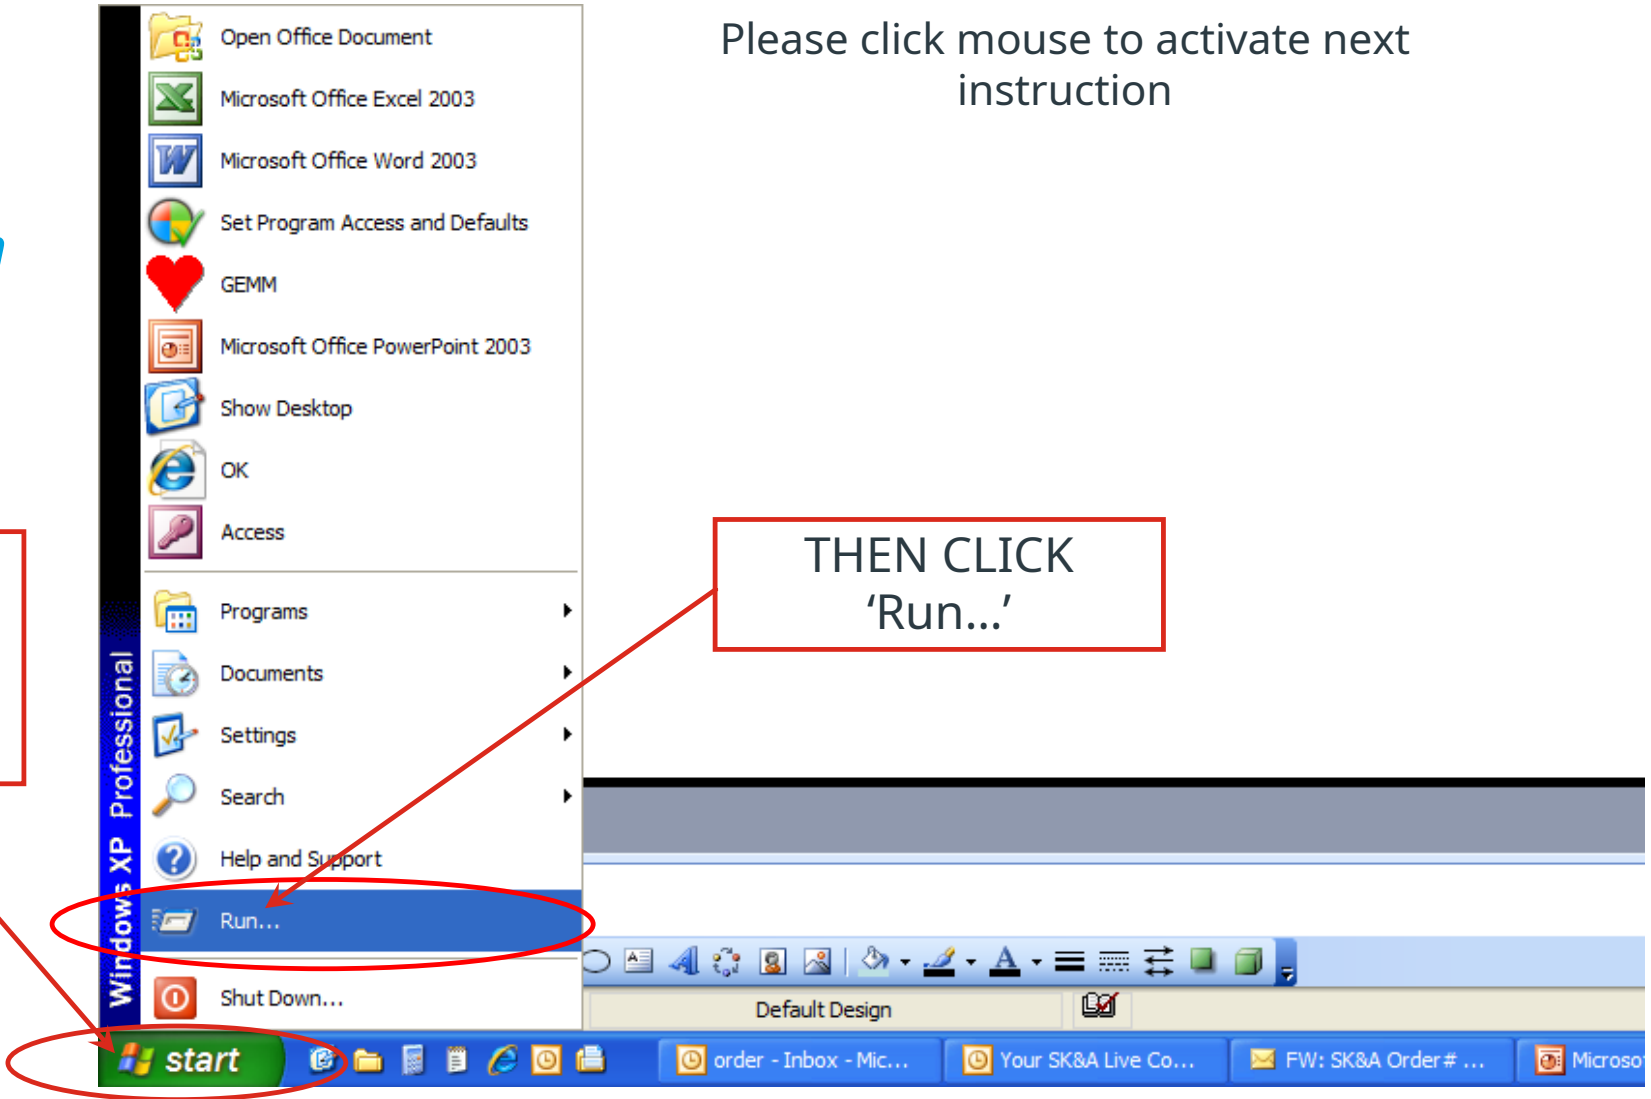

Start

Open start and click Run

Please click mouse to activate next instruction

FIRST CLICK THE 'start' button on your Windows Desktop

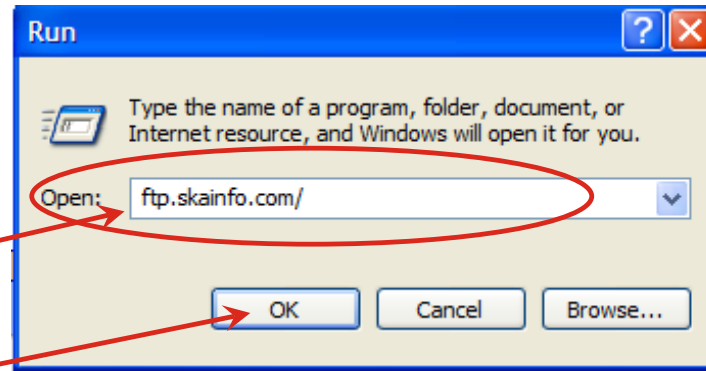

THEN CLICK 'Run...'

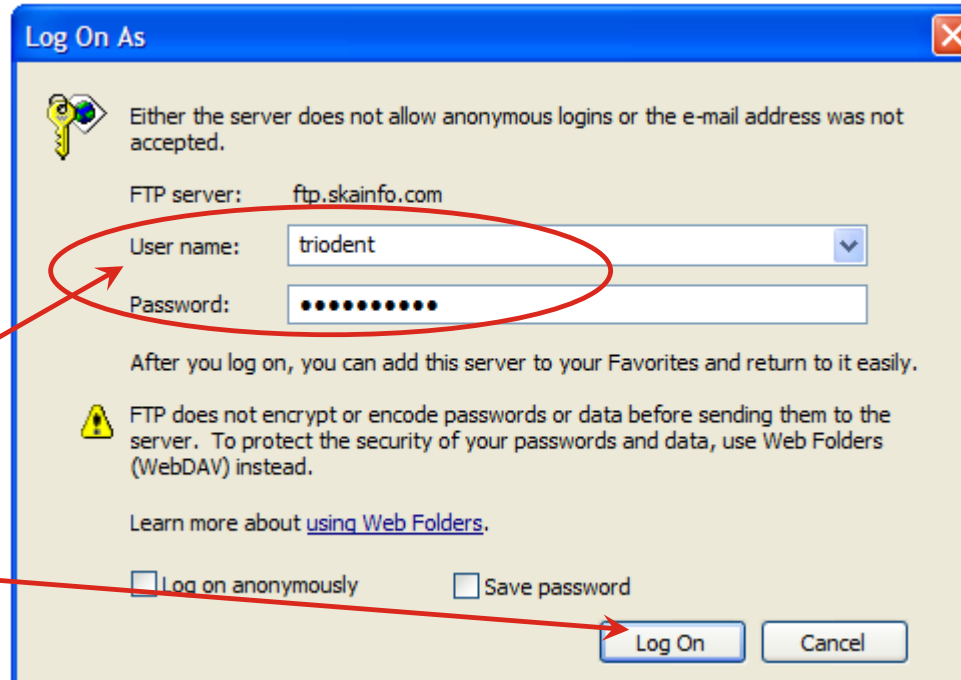

FTP access

Type in address and logon

PLEASE
Type in:
[ftp.skainfo.com/](ftp://ftp.skainfo.com/)
Then click OK

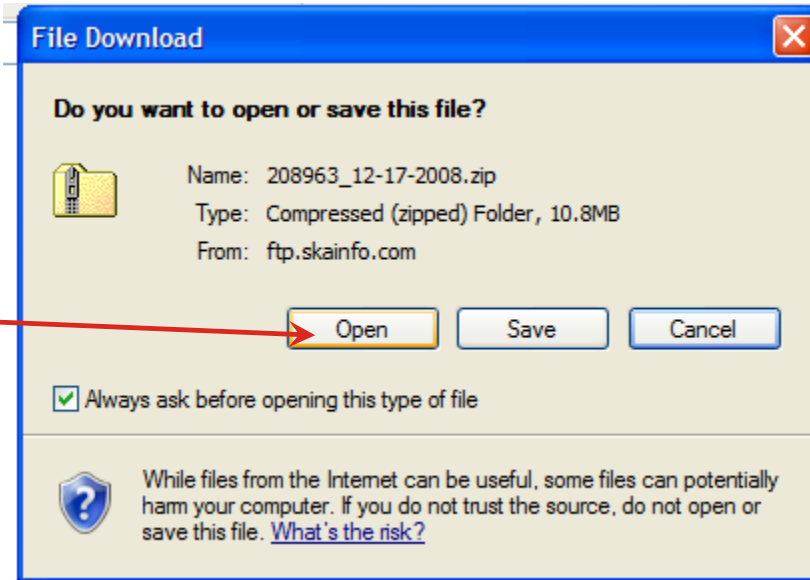

Please type in User
Name: and Password:
(both case sensitive)
Then click 'Log On'

File Download

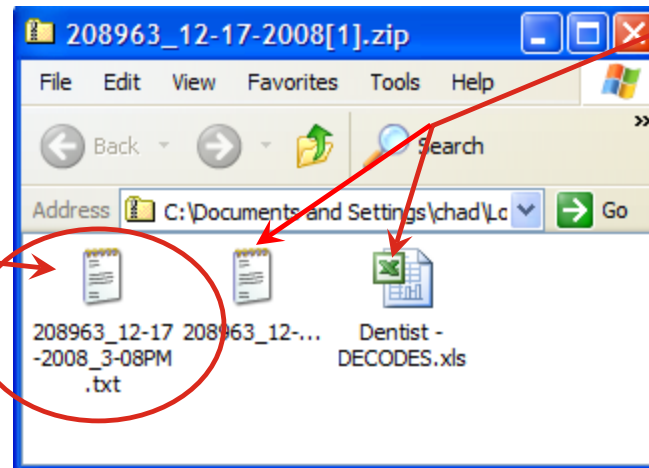

Open your file

Click 'Open'

Your Data File should always be the icon on the upper left of the zip file container.

If in fact there are more than One Data File, they should be lined up in consecutive order.

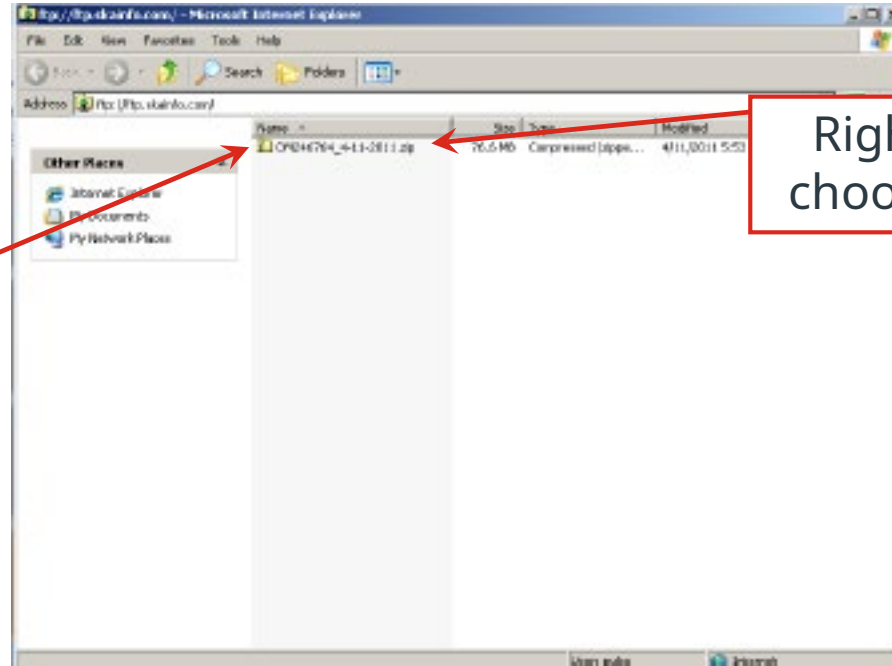

The other 2 icons are for data/file layout purposes only.

If you do not get the popup box like in this example, go to the next slide

File in .zip format

Copy zip file

Or you may see the file, in this example as a ZIP

Right click on the file, choose "Copy to folder"

Choose the place you want to save your data and click 'OK'
